DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Claims 1-11 are allowed because the prior art fail to teach or fairly suggest a device for mode-locking laser as recited in the claim 1 with a solid intensity limiter arranged in the cavity, whose transmission coefficient of the laser radiation passively decreases as the intensity of said radiation increases, wherein said intensity limiter comprises GaAs, CdSe or InP plate. Examiner have found no suggestion from the prior art to combine any GaAs, CdSe or InP plate in any prior mode locking laser devices for passively deceasing the transmission coefficient of the laser radiation as the intensity of the radiation increases.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
